WHITE HAT ALERT...

Corvallis, Montana

Let's Hear It for *We the People!*

Hopefully, you've seen the volunteers on TV helping to clean up vacant national park facilities during the current partial government shutdown. It is an example of the best in the American people. It is a great example of how "We the people" can be participants in helping to solve problems that we have as a nation. So, let's take a look at another idea for "We the People."

The Dems complain that the cost of building the Southern Border Wall is too much. So, starting with Montana, I propose that the people help pay for the wall. If President Trump is willing to keep his campaign promise, all of us who voted for him should have his back and support him.

Working with a local bank, we can set up an account for the people to donate \$5, \$50, \$500 or even \$5,000 dollars towards the \$5,000,000,000 Trump requested for the wall. (Of course, any amount would be gratefully accepted.) We can call it "Montanans Help Build the Wall" in the hope it would encourage other red states to follow our lead. We could even promote a little healthy competition between the states.

We should work with local and state media and include our elected officials such as Senator Steve Daines and Congressman Greg Gianforte. It would be important to take pictures and spread the word to get more of the people of Montana involved. Just think if Montana raised \$50,000 and other states picked up on the idea. How much money do you think we could raise?

Remember Senator Schumer and other Democrats try to tell us that the majority of Americans don't want the wall, even though they voted for it in 2006. So, this project would send a huge message to every member of Congress that the country still belongs to "We the People" and we are helping President Trump "Build the Wall"!

Think about it!

God bless,
Gary and Joan Carlson
